Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This Office Action is in response to the filing of the Amendment on 9/6/2005 has been considered but they are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, this action is made **FINAL**.

2. Claims 1-9, 12-15, 17, 19-20 are presented for examination.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 9, 15, 17 and 19 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The new matters are

"remaining data in the set is not copied between the first and second buffers" in claim 1;

"copying a subset of the data from the first buffer to a second buffer while other data in the set is not copied" in claim 9;

"storing remaining data in a first section of a second buffer, wherein the subset of data and remaining data comprises a set of data", and "copying the subset of data from

Art Unit: 2182

the first buffer to a second section of the second buffer without copying the remaining data" in claim 15;

"copying a subset of the data from the first buffer to a second buffer while other data in the first buffer is not copied" in claim 17; and

"the subset of the data is copied between the first and second buffers and the remaining data in the set is never copied" in claim 19.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-8 and 19-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claim language in the following claims is not clearly understood:

In claim 1, line 5, the recitation of "the other buffer" is unclear, vague and indefinite in the context of the claim because it is not clear whether the recitation of "the other buffer" refers to "a first buffer" [claim 1, line 2] or "a second buffer" [claim 1, line 3]. Clarification is required. The similar 112 problem is noticed in claim 19.
